

CAT LITTER BOX DEODORIZER

Litterbox odours is specially formulated to combat unpleasant odour in the litter box. Our formula contains natural, non-toxic zeolites that effectively absorbs odours and greatly extends the litter life.

Zeolites are naturally occurring minerals famous for their ability to naturalize odours causing ammonia at a molecular level. When used in litter boxes, they remove malodours by removing ammonia.

PRODUCT BENEFITS

✓ Keeps litter dry for prolonged use

✓ Eliminates strong litter odours

✓ Ideal for multi-cat homes

✓ Non-toxic and safe for long term use

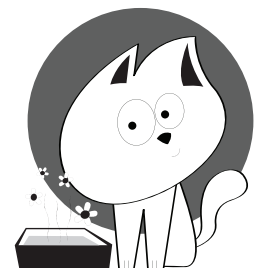

HOW TO USE

STEP 1: Sprinkle the Litter Box Deodorizer evenly over the base of the litter box and surface of the cat litter.

STEP 2: Clean litter box by removing clumps/soiled areas and top-up with cat litter and Litter Box Deodorizer.

STEP 3: Use as required to eliminate litter box odour and to keep cat litter dry.
